

**AMERICAN
TOURISTER**
— SINCE 1933 —

OUR STORY

The dream began in 1933 as a small luggage workshop.

Pretty soon though, it became a fast-growing business that offered travel lifestyle products across categories. Be it business cases, casual bags, backpacks or other travel accessories, the American Tourister mission became to give people all they needed when they set out to see or conquer the world.

In 60 years this mission touched so many lives, that by the time Samsonite acquired us in 1993, we were one of the oldest and best-known luggage brands in the United States! By then, we had made travel cooler and easier for the world, and thereafter we made Samsonite Corporation one of the top luggage brands in the world.

In this millennium, our story has continued to grow, touching more lives across the globe, and spreading our mission through Europe, Latin America, and Asia. We became a highly functional style statement for the new generation of youth that valued worldly experiences more than ever, and wherever they went, they took the American Tourister name with them!

Our products guarantee quality, style, and ease-of-use, while our aesthetics are acclaimed by Red Dot awards, and all this still comes at affordable prices.

So be it with friends or family, for a voyage long or short, for an experience adventurous or tranquil, you'll find a colorful American Tourister companion, reflective of who you are, and excited to come along!

WE PURSUE PERFECTION

Lock Test – Push & Release
The lock is operated quickly, roughly, and continuously to test its durability.

Mileage Cycle- The bag is fully loaded, then subjected to linear motion to test the reliability of the wheels.

Handle Test -The handle is twisted and twitched while the bag is fully loaded, to test its strength and durability.

Drop Test- The bag is fully loaded and dropped on the ground on all its corners.

Tumble Test - The bag is fully loaded, then tumbled in a large rotating drum that has protrusions on the inside, to test reliability.

We don't just tick boxes. We scrutinise every seam, zipper, spine and stitch to ensure your travel sidekicks are top-notch and ready for the lifelong adventure. We're not just about quality; we're about infusing that quirky flair into every suitcase, so your travels become unforgettable stories worth sharing! That's how we guarantee products that are Worldproof®.
